

NIVO DESIGN SYSTEM

Foundations v1

A clear, practical system for a professional brand with subtle warmth.

Professional first. Human always.

Personality in small, intentional doses.

 LOCKED FOUNDATION

The thoughtful expert

Nivo should feel like a mature, brilliant colleague:

calm, capable, trustworthy, and genuinely useful.

80%

Quiet confidence

Structure, precision, and calm hierarchy.

20%

Thoughtful warmth

Greige, rounded edges, and restrained color.

100%

Human respect

Plain language without hype or patronizing tone.

Design promise

Complex work should never look visually chaotic.

The locked logo system

PRIMARY HORIZONTAL

REVERSED

MARK

STACKED

APP ICONS

Protect the mark

CLEAR SPACE

Minimum clear space = 1/4 mark width

USE

- ✓ Use official SVG assets
- ✓ Scale proportionally
- ✓ Keep the original five-color order
- ✓ Use navy or warm-white one-color versions

NEVER

- ✗ Redraw, smooth, or simplify the paths
- ✗ Stretch, rotate, rearrange, or close the gaps
- ✗ Add gradients, outlines, shadows, or textures

24px recommended minimum / 16px favicon exception

Authority, warmth, and small moments of personality

BRAND ACCENTS

Default composition: mostly greige, white, and navy. Pastels remain accents.

Accessible by construction

PRIMARY READING PAIR

13.1:1

Navy on Canvas Greige

Exceeds WCAG AA and AAA for normal text.

PASTELS ON LIGHT SURFACES

Decoration, not body text

The logo pastels are intentionally soft. Use them as fills, categories, highlights, or graphics, not normal text on light backgrounds.

SEMANTIC COLORS

Success

#226B55

Warning

#75500F

Danger

#A1373F

Information

#2F5DAA

Never communicate meaning by color alone. Pair color with text, icons, or structure.

Inter carries the system

Aa

INTER

Clean, practical, and highly readable across product and web.

Wordmark exception

The outlined nivo wordmark is fixed logo artwork derived from Avenir Next Demi Bold. Never recreate it with live text.

Display L

Clarity, without the noise.

Heading 2

Important work, made approachable.

Body M

Use clear hierarchy so complex information remains easy to understand.

Label

REQUIRES REVIEW

A 4px rhythm, softened at the edges

SPACING SCALE

Use spacing to group content before adding borders.

RADIUS SCALE

Precise first. Rounded enough to remain approachable.

Rounded line icons and quiet motion

ICON STYLE

20px / 24px grid

- 1.75px visual stroke
- Round caps and joins
- Simple, recognizable geometry
- Filled only for selected states

MOTION

FAST		120ms
STANDARD		180ms
DELIBERATE		280ms

Motion explains cause and effect. Avoid bounce, parallax, perpetual decoration, and transitions that delay work.

Respect prefers-reduced-motion.

Calm expert, supportive colleague

PREFERRED

Three updates require your review.

Lead with the useful information. Use respectful, plain language and make the next action clear.

Review updates

Calm / direct / specific

AVOID

Hey! We found exciting things!

Avoid hype, forced friendliness, excessive exclamation marks, unnecessary emoji, and describing routine automation as magic.

See the magic!

Noisy / vague / overfamiliar

Product UI and useful content carry the brand. Illustration remains rare and supporting.

One source of truth

The system is built to be read by humans and AI.

- 01 Official SVG assets** Logo geometry and approved configurations
- 02 Design tokens** Exact colors, type, spacing, radius, shadows, and motion
- 03 Written guidance** Principles, usage rules, boundaries, and governance
- 04 Component library** The next layer, consuming shared foundation tokens

AI instruction

Read the guide. Load the tokens. Reuse the assets. Do not reinvent the brand.

NIVO · BRAND PREVIEW

LOCKED MASTER

A clear identity with a little warmth.

01 · MARK ONLY

Original colorway - geometry unchanged

02 · PRIMARY HORIZONTAL LOCKUP

Deep navy wordmark - original pastel mark

03 · STACKED
